## Commercial Projects

**ANA Storage Facility** - Project Manager responsible for the site planning, grading, stormwater design, sewer design, water design, erosion control, water quality and permitting for this 7.08 acre commercial site located in Marietta, GA. Project to include office, business and storage facilities.

## Projects Prior to Connelly & Wicker

**Wal-Mart, Multiple Site Development** - Provided civil and consultant management services to Wal-Mart for their Supercenter program in central and western United States. Responsibilities included site feasibility analysis, site development plan production, local and federal permitting, sign permitting, subconsultant coordination, project scheduling, project budgeting, contract negotiations and as-built verification. Examples of sites managed are as follows:

- Little Rock, Arkansas
- Siloam Springs, Arkansas
- Springfield, Missouri
- Council Bluffs, Iowa
- Ottumwa, Iowa
- Monticello, Indiana
- Casper, Wyoming

**Home Depot, Little Rock and North Little Rock, AR** - Project Manager responsible for providing civil and consulting services to Greenberg Farrow for local design and permitting services for both the Little Rock and North Little Rock sites. Responsibilities included surveying, site development plan production, local and federal permitting and as-built verification. Additional services were contracted specifically to the Little Rock site for the design/relocation of a 42" non-potable waterline that serviced the City of Little Rock, AR. We also provided inspection and as-built services.

**Target, Little Rock, AR** - Project Manager responsible for providing civil and consulting services to Target for their site located on Chenal Parkway in Little Rock, AR. Services provided to Target included site plans, permitting, retaining wall design, 42" non-potable water line design/relocation and as-built verification.

**Lowes, Springfield, MO** - Project Engineer responsible for site design, plan production and local permitting.

**Tony Roma's, Little Rock, AR** - Project Manager responsible for the design, plan production and permitting for the restaurant chain in the Little Rock Area. Design specialties included an elaborate on-site above ground detention facility that incorporated parking areas and median landscaping due to site constraints.

***Murphy Oil USA, Multiple Site Development*** - Senior Project Manager responsible for the overall site development services provided to Murphy Oil which include but were not limited to: site feasibility analysis, plan production, site permitting, sign permitting, client representation, budgeting, sub-consultant coordination and as-built verification. Some of the sites managed include:

- Dothan, Alabama
- Montgomery, Alabama
- Birmingham, Alabama
- Macon, Georgia
- Savannah, Georgia
- Athens, Georgia
- Acworth, Georgia

***Yum Brands (Taco Bell, KFC, Pizza Hut, Long John Silvers and A&W), Multiple Site Development*** - Senior Project Manager responsible for overall site development services provided to YUM Brands which included site feasibility analysis, plan production, site permitting, sign permitting and architect coordination. Some of the sites managed include:

- Lawrenceville, Georgia
- Kennesaw, Georgia
- Duluth, Georgia
- Suwanee, Georgia
